System details

SAP BOBJ BI implementation

Implementation Partner

PrimeNumerics Consulting Pvt Ltd

Duration:

1 year

Key Challenges:

- Standardize business processes throughout the company
- Satisfy compliance requirements
- Fulfill demanding reporting needs for executive decision making
- Streamline transactions between groups(products/ plants)
- Sales Planning was performed in Excel and did not integrate valuations of expenses

Why SAP BO:

- SAP Business Objects Implementation offers with relevant information and insights in no time to achieve outstanding results to the decision makers.
- SAP BO also helps business users transform their decision making by providing data-based, high quality information regardless of where data resides

Objectives:

- Complete integration of Financial Planning, Budgeting and forecasting.
- Complete integration of Sales Forecasting
- Simplification of communication during the logistics process disruptions between customer, service provider and supplier as well as an accurate, fast and sustainable elimination of the disruption's root causes.

Aquapharm Chemicals Pvt Ltd. after successful SAP BOBJ BI Project implementation has helped in better business visibility and tracking of performance measures

Solution:

- Gathering the functional and technical requirements from the respective departments
- Mapping of currently used Excel reports to equivalent SAP data
- Developing intuitive web intelligence reports from SAP R3 data
- Creation of report templates which includes “What-if” scenario and drill down features for Financial Planning, Compensation Planning, and Sales forecasting

Tools:

- SAP Business Objects XI 4.0
- SAP Business Objects Universe Designer
- SAP Business Objects Web Intelligence
- SAP Business Objects Dashboard
- SAP Business Objects Crystal Reports
- SAP Visual Intelligence/ Lumira

About PrimeNumerics:

PrimeNumerics offers complete, standardized suite of analytics for Business Objects customers. We anticipate and exceed our customers' needs, build strong and lasting partnerships, and provide superior business value. PrimeNumerics has a team of 200 dedicated consultants with deep domain experience and a rich knowledge base in Business Objects products, universe development, reporting, database administration and communications. We also offer corporate performance management tools of balance scorecards and dashboards, and classroom and online training for Business Objects. PrimeNumerics has a well-defined and field-tested implementation strategy roadmap for the efficient execution of projects.

Benefits:

- Standardized reporting layer led to huge savings in time and effort spent in data analysis, from 4 -5 hours per report to just minutes
- Provided enhanced analytics featuring interactive data visualization graphics and charts identifying trends and effectiveness of the recoveries process
- Ensured consistency of analyses across different end user resources
- Eliminated data integrity issues
- Enabled end users to perform data analysis using dashboards as well as access to detailed level data
